

# ORILOYE TOYYIB

## PROFESSIONAL SUMMARY

Results-oriented Software Developer with experience in Agile development and collaborating with cross-functional teams to deliver user-centric and scalable features. Proficient in implementing user activity logging and designing secure document archiving systems to ensure compliance with privacy and data security standards. Skilled in developing and optimizing RESTful APIs using Django Rest Framework and reducing page load times by 20%. Strong problem-solving and teamwork abilities, with a focus on delivering projects within deadlines and effectively communicating solutions to stakeholders.

## EXPERIENCE

### Web Application Developer Intern

April 2024 - August 2024 | Ace Project Space, Winnipeg, MB

- Contributed to the development of a healthcare web application as part of an Agile team, actively participating in sprint planning, daily stand-ups, and sprint reviews.
- Implemented user activity logging, providing actionable insights into user interactions and improving monitoring capabilities.
- Designed and integrated a secure document archiving system to efficiently manage healthcare records, ensuring compliance with privacy and data security standards.
- Collaborated with cross-functional teams, aligning technical implementations with business objectives to deliver user-centric and scalable features.
- Developed and optimized RESTful APIs using Django Rest Framework, ensuring seamless integration with React frontend components.
- Performed code reviews and debugging, enhancing application efficiency and reducing page load times by 20%.
- Delivered project milestones within deadlines and effectively communicated solutions to stakeholders, receiving consistent positive feedback.

### Technical Support Specialist

November 2021 - March 2023 | Globacom Limited, Lagos

- Provided technical support for Globacom products through phone, email, and chat, ensuring prompt and effective resolution of customer inquiries.
- Diagnosed and resolved customer issues, maintaining a high standard of service and accurately documenting interactions in the CRM system for future reference.
